

48V30AH-200AH AGV Charging Station Equipment For Lithium Iron Phosphate Battery

Our Product Introduction

for more products please visit us on roboticsagv.com

Basic Information

- Place of Origin: GUANGZHOU
- Brand Name: TIANYUE
- Certification: 3c.ce
- Model Number: DC-48V
- Minimum Order Quantity: 1
- Packaging Details: wooden box
- Delivery Time: 15 work days
- Payment Terms: T/T
- Supply Ability: 100

Product Specification

- Shell: Metal
- Voltage: 48V
- Communication: 485/CAN
- Size: Customization
- Battery Type: Lithium Iron Phosphate
- Highlight: 200AH AGV charging station,
48V30AH AGV charging station,
48V30AH agv battery charger

Product Description

AGV charging station equipment Lithium iron phosphate battery 48V30-200AH size can be customized 485/CAN communication

Parameter	Details
Cell Type	Lithium Iron Phosphate (LiFePO4) Cells
Battery Voltage	48V
Battery Capacity	30Ah-200Ah (customizable)
Charging Current	50A
Discharging Current	80A
Casing Material	Cold-rolled steel with spray coating / Stainless steel
Dimensions	Customizable
Communication	485/CAN
Applicable Vehicle	AGV (Automated Guided Vehicle)
Features	Supports unmanned charging with charging station, automatic charging station detection, customizable communication protocol

Main Features

Supports unmanned charging with charging station
Automatic charging station detection
Customizable communication protocol

Application Scenarios

Suitable for AGV systems in factories, warehouses, and logistics centers.

Advantages

High Safety: Lithium iron phosphate cells offer excellent thermal and chemical stability.

Long Lifespan: Suitable for applications requiring frequent charge and discharge cycles.

High Efficiency: Supports high current charging and discharging, improving operational efficiency.

Smart Features: Equipped with automatic charging station detection and unmanned charging capabilities.

Flexible Customization: Wide capacity range to meet various application needs.

Durable Casing: Offers choices of cold-rolled steel with spray coating or stainless steel for enhanced durability.
