

## Intelligent Unmanned Forklift with Rated Load 0-5000KG, 1.8m Turning Radius, and Emergency Stop Button

Our Product Introduction

### Basic Information

- Brand Name: TIANYUE

### Product Specification

- Obstacle Detection: Ultrasonic Sensors
- Rated Load: 0-5000KG
- Power Source: Electric
- Turning Radius: 1.8m
- Navigation System: Laser/RFID
- Drive: Mecanum Wheel Or Steering Wheel
- Appearance: Customization
- Motor Way: Servo Motor
- Highlight: **Rated Load 0-5000KG Intelligent Unmanned Forklift**  
**, 1.8m Turning Radius Heavy Duty Forklift Truck**  
**, Emergency Stop Button Automated Guided Forklift**

### Emergency Stop Button Intelligent Unmanned Forklift with Ultrasonic Sensors and Differential Drive

#### Advanced Material Handling Solution

The Intelligent Unmanned Forklift is a state-of-the-art heavy duty forklift truck designed to revolutionize material handling in industrial environments. Combining cutting-edge technology with robust mechanical design, this forklift delivers unmatched performance, efficiency, and safety with extensive customization options.

#### Key Features

- **Differential Drive System:** Exceptional maneuverability with 1.8m turning radius
- **Drive Options:** Mecanum wheels for omni-directional movement or traditional steering wheel
- **Load Capacity:** 0-5000kg for heavy-duty applications
- **Autonomous Operation:** Advanced sensors and intelligent control algorithms
- **Custom Appearance:** Fully customizable to match company branding

Technical Specifications

|                       |                                               |
|-----------------------|-----------------------------------------------|
| Power Source          | Electric                                      |
| Navigation System     | Laser/RFID                                    |
| Rated Load            | 0-5000KG                                      |
| Autonomous Navigation | Visual Navigation                             |
| Obstacle Detection    | Ultrasonic Sensors                            |
| Turning Radius        | 1.8m                                          |
| Safety Features       | Emergency Stop Button / Anti-collision System |
| Drive Options         | Mecanum Wheel or Steering Wheel               |
| Motor Type            | Servo Motor                                   |

### Industrial Applications

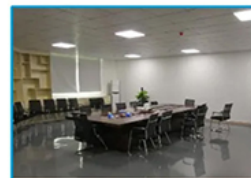

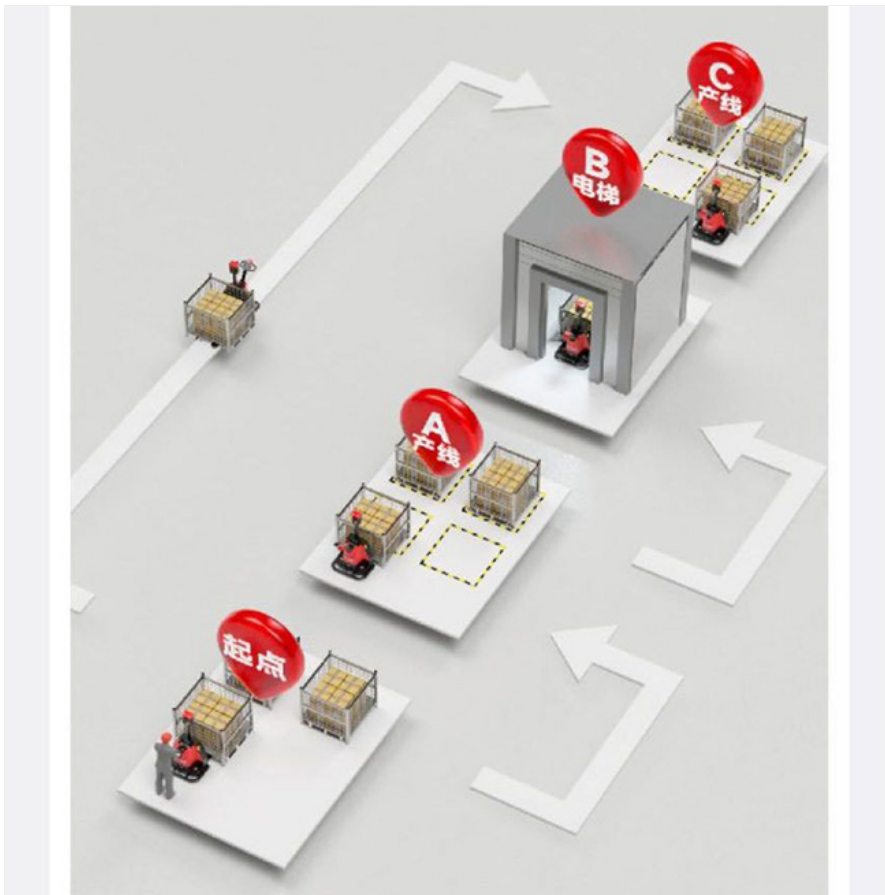

This heavy duty forklift truck is ideal for warehouses, manufacturing plants, and logistics centers. Its compact design excels in narrow aisles and high-density storage facilities, while the electric power source ensures eco-friendly operation in indoor environments. Perfect for automotive, electronics, food and beverage, and pharmaceutical industries.

### Customization Options

Our forklift offers complete appearance customization to match your branding, along with choice of drive systems for optimal

maneuverability. Safety features including emergency stop button and anti-collision system ensure reliable operation in any industrial setting.
