

Intelligent Unmanned Forklift with 8 Hours Battery Life and 1m/s Speed for Indoor Warehouses

Our Product Introduction

for more products please visit us on roboticsagv.com

Basic Information

- Brand Name: TIANYUE
- Certification: 3c.ce
- Minimum Order Quantity: 1 Sets
- Price: Negotiable
- Packaging Details: Regular Packaging
- Delivery Time: 30-40 working Days
- Payment Terms: L/C,T/T
- Supply Ability: 100 pieces/month

Product Specification

- Turning Radius: 1.8m
- Forklift Type: Forward Moving
- Working environment: Indoor Warehouses And Factories
- Appearance: Customization
- Load: 1000KG
- Drive: Mecanum Wheel Or Steering Wheel
- Operating speed: 1m/s
- Color: Customized
- Highlight: 8 Hours Battery Life Intelligent Unmanned Forklift
1m/s Speed Heavy Duty Forklift Truck,
Indoor Warehouses Automated Guided Forklift

Our Product

Product Description

Intelligent Unmanned Forklift - Heavy Duty Forklift Truck for Indoor Warehouses and Factories

Advanced Automated Material Handling Solution

The Intelligent Unmanned Forklift is a state-of-the-art heavy duty forklift truck designed to revolutionize material handling in indoor warehouses and factories. Combining advanced automation technology with robust construction, this forklift delivers exceptional performance, reliability, and efficiency for industrial applications.

Key Advantages

Compact Maneuverability: Features a tight 1.8m turning radius for easy navigation in confined warehouse spaces.

Extended Operation: 8 hours continuous battery life supports uninterrupted work shifts.

Optimized Speed: 1m/s operating speed balances efficiency with safety.

Heavy-Duty Capacity: 1000kg load capacity handles substantial industrial loads.

Product Features

- Real-time 3D obstacle detection for advanced safety
- Customizable appearance to match facility requirements
- Forward moving forklift type for efficient material transport

- Mecanum wheel or steering wheel drive options
- Designed specifically for indoor industrial environments

Technical Specifications

Parameter	Specification
Load Capacity	1000KG
Drive System	Mecanum Wheel Or Steering Wheel
Turning Radius	1.8m
Obstacle Avoidance	Real-time 3D Obstacle Detection
Operating Speed	1m/s
Battery Life	8 Hours Continuous Operation
Working Environment	Indoor Warehouses And Factories

Loading and Unloading Scenario

Warehouse Stacking Scenario

Industrial Applications

The TIANYUE Intelligent Unmanned Forklift is engineered for demanding material handling tasks in:

- Large-scale warehouse operations
- Manufacturing and production facilities
- Automotive assembly plants
- Electronics manufacturing
- Food processing and pharmaceutical industries

Its unmanned operation reduces labor costs while improving safety and efficiency in controlled indoor environments.
