

## Intelligent Unmanned Forklift Heavy Duty Forklift Truck with 24V/230AH Battery Capacity 3000mm Lifting Height and 2000KG Load Weight

Our Product Introduction

### Basic Information

- Brand Name: TIANYUE
- Certification: 3c.ce
- Minimum Order Quantity: 1 Sets
- Price: Negotiable
- Packaging Details: Wooden Box
- Delivery Time: 30-40 Working Days
- Payment Terms: L/C,T/T
- Supply Ability: 100 Pieces/month

### Product Specification

- Full Load Running Time (h): 6~8
- Pallet Type: Stringer/Checkered/Rack
- Battery Capacity: 24V/230AH
- Motor Way: Servo Motor
- Load Weight: 2000KG
- Drive Configuration: Differential Drive + Steering Wheel
- Productname: Counterbalance Forklift - Indoor
- Dimensions: 2965mm/1090mm/2110mm
- Operating Speed: 1.5m/s
- Lifting Height: 3000mm
- Highlight: **24V/230AH Battery Capacity Intelligent Unmanned Forklift**  
**3000mm Lifting Height Heavy Duty Forklift Truck**  
**2000KG Load Weight Counterbalance Forklift**

## Product Description

### Intelligent Unmanned Forklift - Heavy Duty Warehouse Solution

The TIANYUE Intelligent Unmanned Forklift represents a revolutionary advancement in material handling technology, specifically designed for demanding warehouse and industrial environments. This counterbalance forklift model delivers exceptional performance, safety, and automation capabilities to optimize logistics and operational workflows.

With an impressive 3000mm lifting height, this heavy duty forklift efficiently handles and stacks loads at significant heights with superior stability. The robust design supports load capacities from 1 to 2 tons (maximum 2000KG), making it ideal for handling diverse heavy materials and pallets in indoor warehouse settings.

Powered by a high-capacity 24V/230AH battery system, the forklift ensures extended operational hours with quick charging capabilities. The electric powertrain provides quiet, clean operation while reducing carbon emissions and energy consumption.

#### Advanced Automation Features

This intelligent unmanned forklift integrates cutting-edge automation technologies including advanced sensors, cameras, and control algorithms. These systems enable autonomous navigation through complex indoor layouts, obstacle avoidance, and precise load positioning without human intervention.

Designed specifically for indoor use, the forklift offers excellent maneuverability and compactness for tight spaces and narrow aisles. The counterbalance design ensures optimal stability and load control, even when lifting heavy weights to maximum heights.

### Key Specifications

Product Name: Intelligent Unmanned Forklift

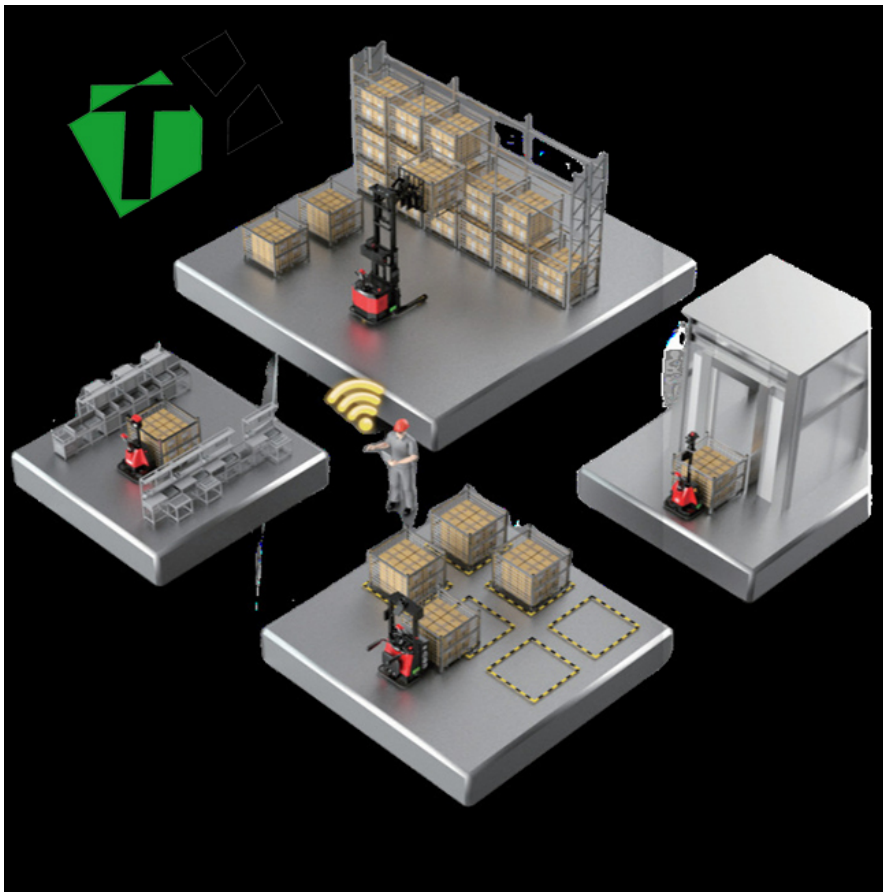

Lifting Height: 3000mm

Drive Configuration: Differential Drive + Steering Wheel

Dimensions: 2965mm (L) x 1090mm (W) x 2110mm (H)

Battery Capacity: 24V / 230AH

Motor Type: Servo Motor

## Technical Parameters

Product Name	Counterbalance Forklift - Indoor
Communication	Wi-Fi And 5G Connectivity
Driving Mode	Automatic/Manual
Load	1-2T
Drive Configuration	Differential Drive + Steering Wheel
Pallet Type	Stringer/Checkered/Rack
Load Weight	2000KG
Safety Features	Obstacle Detection And Emergency Stop
Motor Way	Servo Motor
Full Load Running Time (h)	6~8

## Industrial Applications

The TIANYUE Intelligent Unmanned Forklift is engineered to revolutionize material handling across various industrial settings. Certified with 3C and CE standards, this heavy duty forklift excels in demanding warehouse and factory floor environments where automation and efficiency are paramount.

Ideal for high-volume storage facilities, manufacturing plants, distribution centers, and logistics hubs, this forklift ensures precise and reliable handling of heavy loads up to 2000KG. The advanced Wi-Fi and 5G connectivity enable seamless communication and remote control operations.

With supply capacity of 100 pieces per month and delivery within 30-40 working days, TIANYUE supports businesses in scaling their operations efficiently with flexible payment terms including L/C and T/T.
